31 July - 1 August, 2015

Africa and Asia Entanglements in Past and Present : Bridging between History and Development Studies

Venue: Kansai University Senriyama Campus :100 anniversary memorial building

The primary objective of this project is to enlarge and deepen the scope of the study of Africa-Asia relations by addressing facets of those interactions that are mostly neglected in contemporary scholarship. We aim to offer historically contextualized insights about the various ways in which the African and Asian regions and studies engage with each other and explore those engagements from a variety of theoretical standpoints and frameworks. The project draws on the expertise of Asianists and Africanists in direct dialogue, exploring the histories, dynamics, and outflows of social interaction between the two regions and studies.

Program

The First Day (31 July)

- 9:00-9:30 Welcoming Address :
